## press release

Amsterdam - September 2008

Basserk starts this fall with a new release in a new series. After the 'Split series' we have now started the **AD series**. AD stands for **All Digital** and this means that from now on we will also release EP's and albums just for digital sales. This doesn't mean that we won't release tracks on CD or Vinyl any more but that we realize that the market is changing and that we have to adapt to it to stay alive.

The first release in this series is '**You hear what eye see**' from Drifter TV. Seven varied tracks that are hard to describe in 1 genre, think about: electro, techno, acid or bigbeat but maybe just call it Drifterbeat! Drifter TV is Remko vd Drift and Nils Muhlenbruch. These two guys are no strangers in the dutch dance scene. With their exciting combination of music and animation they have been touring most clubs/stages in Holland for the past years already. If you've see one of those shows, you'll know because it's pretty impressive, so it wasn't a big surprise when they released a dvd in 2005 on the dvd label Submarine. We are happy to add Drifter TV to our list of Basserk artists. In our eyes they are a unique dutch audiovisual live act, because if you think about it.... how many bands combine music and animation into such a well balanced an coordinated live show?

Well then! From now on a selection of Drifter tracks are for sale on Itunes, Beatport and other web shops. So you don't have to wait any more till the guys play in your area, no, you can just download those tracks and listen at home or on your Ipod.

Later this fall Basserk will release a few more albums. In the AD you can expect the cool newcomer MilkMoneyMaffia, also on CD and Digital we will release a new compilation called 'Some Tunes 2'.

More news from the Basserk crew soon but enjoy the Drifters first!
